Subject: Pesticide sales/quantity information

Hi Billy,

I enjoyed your presentation at ISES last October. It was a nice talk, and it was good to learn about some models that I never knew existed.

I have been participating in an IARC monograph writing group, and have been tasked with finding information worldwide sales/use of five pesticides [Glyphosate (CASRN 1071-83-6), Diazinon (CASRN 333-41-5), Malathion (CASRN 121-75-5), Parathion (CASRN 56-38-2), and Tetrachlorophos (CASRN 22248-79-9)]. I am familiar with EPA's Pesticide Industry Sales and Usage Market Estimates, but I was hoping you may know of some additional resources to get information on worldwide sales figures for specific pesticides.

Thanks and best wishes for a Happy New Year,

Peter
